https://github.com/DP2196/WebMobile-Spring2022/tree/master/2022Spring-Web/Web_ICP2

Tasks performed in ICP2:

1. Created the new repository under Web-and-Mobile-Programming-Spring-2022 remote repository and checked out the same in local with source and documentation folders in it. Created an HTML Page Index.html under WebStorm/web/Web-and-Mobile-Programming-Spring-2022/ICP2_Web/Source.
2. Created the page with all mentioned elements such as: Paragraph, Headings, unordered list, ordered list, div & span elements, block elements (**p,div, h1,ol,ul,footer**) and inline elements(**a,span,strong,img**).
3. Created the folder “resources” under source folder to place the images and videos that were used in Page.
4. Added the appropriate Images at the locations in HTML file and added them as clickable. So, that image location is opened in new tab.
5. Video is added along with volume controls, Play, Pause in a block
6. Added styling elements for the index.html in main.css
7. As all these were done in separate branch, We have merged the changes using pull request to main branch.

Code Base:

Cat

This page is dedicated to cats

The cat (**Felis catus**) is a domestic species of a small carnivorous mammal. It is the **only domesticated** species in the family Felidae and is often referred to as the domestic cat to distinguish it from the wild members of the family. A cat can either be a house cat, a farm cat or a feral cat; the latter ranges freely and avoids human contact. Domestic cats are valued by humans for companionship and their ability to kill rodents. About **60 cat breeds** are recognized by various cat registries.

Few Breeds of cat

- Siamese
- Persian
- Maine Coon
- Ragdoll
- Bengal

What do cats love the most ?

1. Taking Naps
2. Grooming and Being Groomed
3. Fresh, Nutritious Food
4. Running Water

Some Cute Images

Some playing videos
